## PHOTOGRAPHY IN FOCUS - 16TH OCTOBER 2008

On Thursday evening Paul Andrew from Digital Masterclass gave a presentation to an audience of local residents and members of the community, together with a few students, on how to get the best from your Digital Camera. On hand were also members of the Deal and District Camera Club, with a display of their work and advise for anyone who wished to discuss their photography after the presentation. There was also a resource table of information regarding courses available, from part time right through to degree level.

A wonderful evening was had, with some incredible images by both Paul and the DDCC and guests went home inspired and armed with a handout, ready to start shooting!

by Paul Andrew

*'Above and beyond my expectations, stunning images sincerely presented'*

*'I feel inspired to play with my camera and really look at life'*

*'Excellent - I could see everyone wanted to go off and take picture'*

*'More, More, More'*
